

Portage Biotech Announces Participation in January 2022 Investor Conferences

January 5, 2022

WESTPORT, Conn., Jan. 05, 2022 (GLOBE NEWSWIRE) -- Portage Biotech Inc. (NASDAQ: PRTG) ("Portage" or the "Company"), a clinical-stage immuno-oncology company developing therapies to improve patient lives and increase survival by avoiding and overcoming cancer treatment resistance, today announced that the Company will participate in three investor conferences during the month of January.

As part of the Company's participation, CEO Dr. Ian Walters will join other thought leaders in the oncology space two panel discussions on next-generation immuno-oncology therapies and the future of immuno-oncology at the LifeSci Partners 11th Annual Corporate Access Event and the H.C. Wainwright BioConnect Conference, respectively, and will also join a fireside chat discussion at the B. Riley Securities' 2022 Oncology Conference.

Registration and other details for each event are as follows:

11th Annual LifeSci Partners Corporate Access Event

Date: January 5-7, 2022

Format: 1-on-1 investor meetings

Panel Discussion:

Next Gen Immune-Oncology Panel

January 7, 2022 at 7:30am ET

Registration - <https://lifesci.events/lifeSci2022>

H.C. Wainwright BioConnect Conference

Date: January 10-13, 2022

Format: 1-on-1 investor meetings; on demand pre-recorded presentation available through conference portal

Panel Discussion:

New Directions in Immuno-Oncology

B. Riley Securities' Oncology Investor Conference

Date: January 27-28, 2022

Format: Fireside chat January 28, 2022

About Portage Biotech Inc.

Portage is a clinical-stage immuno-oncology company advancing first-in-class therapies that target known checkpoint resistance pathways to improve long-term treatment response and quality of life in patients with evasive cancers. The Company's access to next-generation technologies coupled with a deep understanding of biological mechanisms enables the identification of the most promising clinical therapies and product development strategies that accelerate these medicines through the translational pipeline. Portage's portfolio consists of five diverse platforms, leveraging delivery by intratumorals, nanoparticles, liposomes, aptamers, and virus-like particles. Within these five platforms, Portage has 10 products currently in development with multiple clinical readouts expected over the next 12-24 months.
